## EDUCATION

Cybersecurity Specialization (Ongoing): Institut Esteve Terradas i Illa (2026-2027)
CFGS DAW (Higher Vocational Training in Web Application Development): Institut Pedralbes (2024-2026)
CFGM SMR (Vocational Training in Microcomputer Systems and Networks): Institut Eugeni d'Ors (2022-2024) - GPA: 8.47 / 10

## LANGUAGES

**Spanish:** Native
**Catalan:** Native
**English:** B2

## SKILLS

**Backend**: Node.js, NestJS, Express, TypeScript, PHP, Laravel, REST API, WebSockets (Socket.IO)
**Frontend**: Vue 3, Nuxt, Next.js, React, Pinia, Tailwind CSS, HTML, CSS
**Databases**: MySQL / MariaDB, PostgreSQL, SQLite, Prisma, TypeORM
**DevOps & Systems**: Docker, Docker Compose, Nginx, Linux (Debian), Windows Server, Active Directory, Git / GitHub
**Security**: Linux hardening, nftables, CrowdSec, WireGuard, OWASP Top 10, JWT / RBAC
**Methodologies**: Scrum

## CERTIFICATIONS

**Cisco CCNA**: Introduction to Networks (2023)
**Cisco CCNA**: Switching, Routing, and Wireless Essentials (2023)

# Bryan Ruzafa Gonçalves

Full-Stack Developer Junior · Cybersecurity Student

## PROFESSIONAL PROFILE

Junior Full-Stack Developer (DAW) with a background in Systems and Networks (SMR), currently pursuing a Specialization in Cybersecurity. I develop web applications using Node.js/NestJS, Laravel, and Vue, deploy them with Docker, and manage my own hardened Linux server.

## EXPERIÈNCIA PROFESSIONAL

**Sales Technician** · Electrònica Mirambell · 05/25 - 05/26
• Technological client consulting, cash register and point-of-sale management, inventory control, and visual merchandising/displays.

**IT Support Technician (Internship)** · Raventós Codorníu · 10/23 – 06/24
• Level 1 and 2 support: 20-30 weekly hardware, software, and network incidents handled via ticketing systems.
• Deployment of 5-10 laptops per week and user/permission management in Active Directory.

**Delivery Driver & Kitchen Assistant** · West Dallas Pizzeria · 06/23 – 06/25

## PROJECTS

**ADSUM** · DAW Final Project, team of 4 · feb. – may. 2026
NestJS · TypeScript · Vue 3 · MySQL · Socket.IO · Docker
• School attendance PWA featuring anti-fraud dynamic QR codes and real-time functionality.
• Designed the NestJS API (JWT, roles, bcrypt), real-time events with Socket.IO, and Docker orchestration.

**SONARIS** · DAW Individual Project · jan. 2026
Vue 3 · Node.js · Express · Prisma · MySQL · Socket.IO
• Spotify-integrated app (OAuth 2.0) powered by Gemini AI and Ticketmaster, featuring real-time multiplayer rooms and automated weekly playlists.

**TEATRE REGALIA** · DAW Individual Research Project · apr. 2026 (Laravel 12 · Socket.IO · Nuxt 4): ticketing platform with real-time seat locking to prevent double bookings.

**KAIROS** · Team of 4, Scrum · nov. 2025 – jan. 2026, Scrum (PHP · Vue 3 · MySQL): platform for the ENGINY Program of the Education Consortium of Barcelona; developed the catalog, workshop assignment system, and frontend.

**HOMELAB** · Personal · aug. 2026 - Present. (Debian · Docker · nftables · CrowdSec · VPN Tailscale (WireGuard)): self-hosted hardened server hosting bryanrg.dev, blocking +15,000 malicious IPs via CrowdSec, utilizing a VPN, and automated encrypted backups.
